Tackling street harassment and gender stereotypes in youngsters

The EquAlley project is a 24 month school education project funded by the Erasmus+ program of the European Commission with partners from Spain, Portugal, Italy, Netherlands and Poland. It sets out to challenge gender stereotypes, social injustice and gender-based violent behaviour, particularly in public spaces, in youngsters. This will be done by promoting and encouraging youngsters to re-think gender roles, norms and stereotypes through a blended-learning course offered in institutions working with youth (schools, youth centers, sports clubs...). Through pilot actions and training activities with educators themselves, the EquAlley team will develop highly relevant and valuable resources, supporting and encouraging educators to include these crucial topics in their learning experiences.

TPM - 27th of september (Lodz, Poland)

At the end of september (27-28) of 2022, the Equalley project had its third meeting in Lodz. It was a very fruitful meeting where on the first day selected approaches, literature review and guidelines to collect data were presented. It was decided that each partner will collect literature from their own country about stereotypes of gender, gender roles, gender equality, persecution, bullying, cyberbullying, etc. It was also discussed the guide to focus group research, which aims to recognise good practices (knowledge, skills, experience) on the subject of the project through a research of a group of youth workers (between 6 and 10 people).

TPM - 28th of september (Lodz, Poland)

On the second and last day, the dissemination plan was presented, where dates and tasks about the website, social networks and newsletter were decided. And regarding the evaluation plan, all stages of the process were reviewed and agreed.

The next TPM of the project will be in Bilbao (Spain) and until then the agenda continues.
